Kestrel D/NVR
Sutterton Surveillance Systems

Search and download app "Kestrel Viewer"
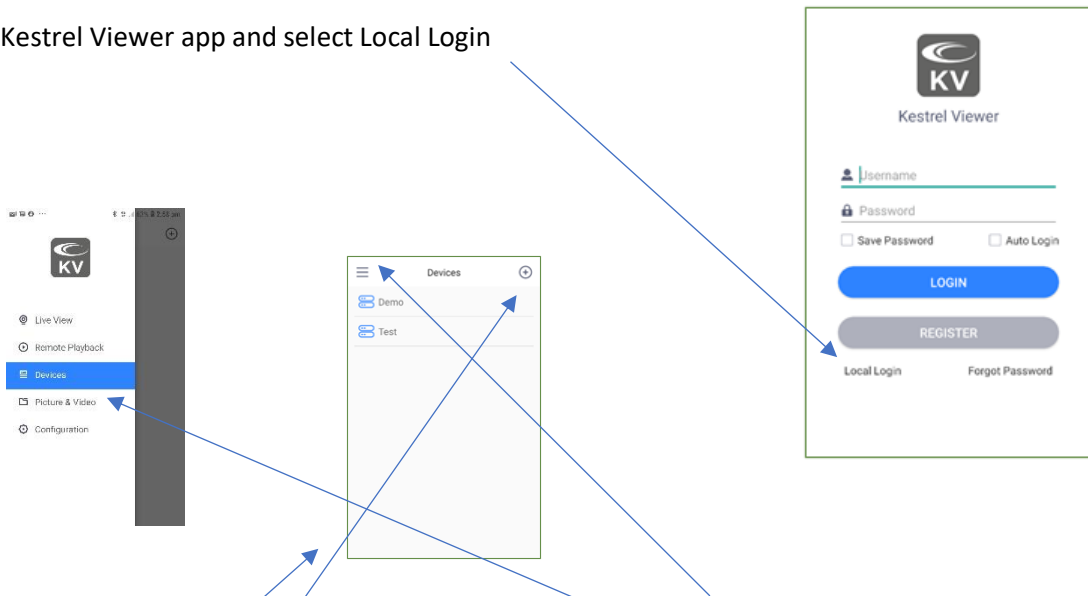

Getting Your Remote Details

- Right Click and select Main Menu
- Select the option for P2P, ensure this is enabled and you will see your QR Code, (Cloud ID)

Pairing Your D/NVR to the App

Note: only once the DVR is set up, (on-line) you can then add the device to your phone

Open the Kestrel Viewer app and select Local Login

If you are not on the 'Devices' page, you will need to select Devices, by clicking on the 'Hamburger' button in the top left

Click on the add button '+'

Select Manual Adding

You will need to enter a Device Name (This is for reference and can be anything) most call it Home.
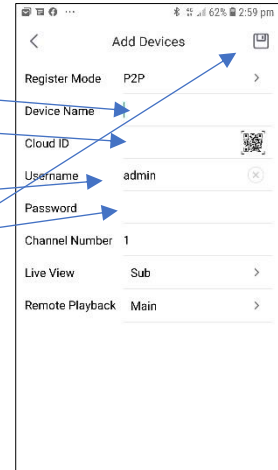

Next your Cloud ID, this can be found above **Getting Your Remote Details**

Username is 'admin' by default

Password default leave blank

Then click on the disk icon, (Top right) to save details

Click on the start live view at the bottom of the screen
