

£580.00

One of our best sellers is this professional, yet affordable HD 4K, (8Mp) CCTV package connected into your TV, (HDMI port). Complete with a 4-channel recorder, enabling you to add additional cameras either on the day or at a later date.

Should you add additional cameras on the day of installation they would only be charged at half price.

The recorder will also allow you to add external PIR's, to reduce false alarms and audio should you require sound from your cameras.

To take advantage of the remote viewing / playback functions on your phones or tablets. The recorder would need to be plugged into your router, (with internet access) via a LAN cable, all of which is installed on the day, not WiFi.

System includes:

- 2 x HD Plus, (8Mp/4K) Eyeball cameras, (grey or white)
- 1 x 4Ch DVR, (Digital Video recorder)
- 1 x 1Tb HDD, (Hard Disk Drive used for storage)
- 1 x 12 Months warranty
- 1 x Installation & Setup

Also available in 2Mp (HD) & 5Mp, (HD Plus)

Upgrades/Extras include:

- Downgrade to HD, (2Mp) or HD Plus (5Mp)
- Upgrade camera viewing angle (78° to 92°)
- Audio
- External PIR's, (reduce false alarms)
