Add a device to SmartPSSlite

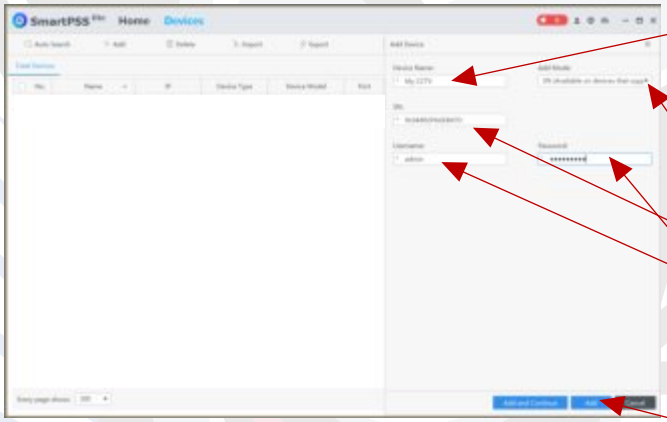

by Surveillance & Security Systems

1: Click on the 'Device' tab

2: Click on the 'Add tab

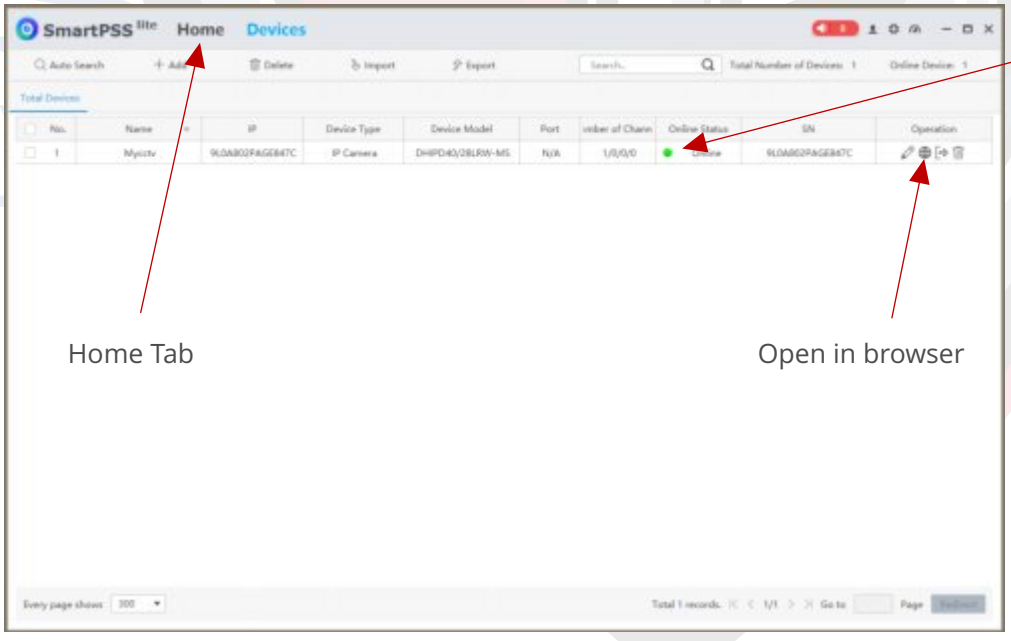

3: Fill out the recorders information, such as device name, (in this example we have put 'My CCTV'.

4: Select Mode to SN (Available on dev.....)

5: Enter your:

SN, ***(available from us)***
Username, *(example might be: admin)*
Password, *(example might be: Mycctv123)*

Click the 'Add' button

Home Tab

Open in browser

After a while the icon will update to green. *If the icon stays grey, then double check stage 5.*

You can now select the 'HOME' tab, or click the internet icon to log into your system via the browser.
